

## **Specifications Sheet**

**Product:** Rabbit Monoclonal Antibody

Anti-LAIR1 Rabbit Monoclonal Antibody, Clone RM498

**Catalog No.:** 31-1390-00

Clone: RM498

Specificity: This antibody reacts to human LAIR-1 (Leukocyte-

associated immunoglobulin-like receptor 1).

**Application:** Immunohistochemistry, Western Blot

**Immunogen:** Recombinant protein of human LAIR-1 extracellular

domain.

**Purity:** Protein A affinity purified from an animal origin–free

culture supernatant

**Size:** 100 μL

**Buffer:** 50% Glycerol/PBS with 1% BSA and 0.09% sodium azide

**Usage:** IHC: 1:100 -1:500 dilution.

WB: 1:1000 - 1:2500 dilution.

Storage and

Stability:

Stable for 1 Year at -20.0°C from date of receipt.

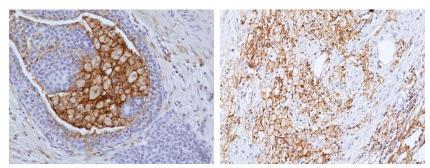

**Country of Origin:** U.S.A.

Intended Use: For Research Use Only Not for Diagnostic or

Therapeutic Use

Immunohistochemical staining of formalin fixed and paraffin embedded THP-1 (left) and HeLa cells using Anti-LAIR1 Rabbit Monoclonal Antibody (Clone RM498) at 1:500 dilution.

Immunohistochemical staining of formalin fixed and paraffin embedded human Breast Cancer (left) and Stomach Cancer tissue sections using Anti-LAIR1 Rabbit Monoclonal Antibody (Clone RM498) at 1:100 dilution.

Western Blot of THP-1 cell lysate, using Anti-LAIR1 Rabbit Monoclonal Antibody (Clone RM498) at 1:2500 dilution
